BAWAN WOOD INDUSTRIES

Bawan Wood Industries Co. Ltd, is a subsidiary of M/s Bawan Company, that manufactures wide range of quality wooden products i.e. wooden pallets & decorative panels that serve an array of industries namely petrochemical, food, glass, paint & furniture industries etc. It offers a variety of innovative products that meet the highest international quality standards, placing it in a leading position locally & regionally.

Moreover, it is accredited with ISO 9002 standards by BSI, for its consistent adherence to quality. Bawan Wood Industries Co. Ltd, was in fact the first industry to be awarded ISPM 15 "heat treatment" certification by the ministry of Agriculture, KSA. It is considered the leading wood products manufacture both in Saudi Arabia & the GCC, for its wide portfolio of products.

One of the company's goals to cater to ever increasing local demand for high quality melamine based decorative products, thus reducing dependence on the imported counterpart.

All our products are proudly manufactured in Saudi Arabia, using state-of-the-art technology which guarantees high quality of the end products, also meeting all the required technical parameters.

OUR VISION

To be the pioneers in our line of industry.

OUR MISSION

- To invest in a field that has a good return & develop the local economy.
- To support our investment with the best human, financial & technical resources available.
- To be always a step ahead of our competitors in regards of quality, service & customer satisfaction.

Company's Strategy

The Company has adopted the following business strategy:

- Enhance its existing product range by focusing on product development and quality assurance;
 - Strengthen relationships with existing customers by addressing their demands and maintaining highest quality standards in the same time;
 - Expand capacity in certain products and add new products while working on entering into selected new markets within Saudi Arabia as well as within the Middle East;
 - Continue to improve operations through cost rationalization and process optimization;
 - Invest in new products that leverage Bawan's value and make use of Bawan's advantages to complement the Company's product offering.
- The Company believes that it has the following strengths and Competitive Advantages:
- Diverse and unique portfolio of products and services which serve to help stabilize the Group's financial results and reduce the impact of negative economic cycles;
 - State-of-the-art manufacturing and production equipment situated in strategic locations owned by the Company;
 - Financial strength and proven performance of the Group's businesses;
 - Ability to maintain and develop administrative, technical and financial skills;
 - Highly experienced senior management with a successful track record in the industrial and construction sectors.
 - Strong relationships with a diverse customer base built over a long period of time;
 - Experience in successfully launching new products in the industrial and construction sectors;
 - Experience in exporting its products outside of Saudi Arabia which enables it to increase its shares in those markets and to add new markets.

WELCOME
